Artificial intelligence has been used in health care settings for years, even before the public became familiar with the technology. In today's featured story, a great lineup for you.

**ARTIFICIAL INTELLIGENCE IN HEALTH CARE**

Artificial intelligence has been used in health care settings for years, even before the public became familiar with the technology.

**MORE AUTONOMY:** A Florida bill that would carve a legal path for people to make their own decisions as an alternative to being placed into a guardianship is headed to Republican Gov. Ron DeSantis. The bill would allow a person with a disability to keep their autonomy to have a final say over what happens in their life while allowing "supporters" to obtain credit.

**CHILD CARE:** Michigan Gov. Gretchen Whitmer signed legislation Wednesday to pay for a family's child and dependent care expenses from 50% to 100% of the federal tax credit. The state law requires the Department of Treasury to review and adjust the rates based on the federal tax credit.

**FEWER ABORTIONS:** The Indiana Department of Health reported abortions dropped from 1,722 to 46 in the first quarter the state's abortion ban was fully in effect, according to the Indiana Capital Chronicle. The law covers all abortions except in the cases of fetal abnormality or serious health risk to the mother.

**POLITICS:** Tennessee House Republicans passed legislation that would allow a family's child and dependent care expenses from 50% to 100% of the federal tax credit. The bill was a direct response to a lawsuit filed regarding its use.

**GOOD MORNING:** Good morning! A Florida bill that would carve a legal path for people to make their own decisions as an alternative to being placed into a guardianship is headed to Republican Gov. Ron DeSantis. The bill would allow a person with a disability to keep their autonomy to have a final say over what happens in their life while allowing "supporters" to obtain credit.
